

William R. Stixrud, Ph.D.

The course was designed by William R. Stixrud, Ph.D, a clinical neuropsychologist and expert on the evaluation and treatment of children and adolescents with LD and ADHD. Dr. Stixrud's work focuses on understanding brain development and the neuropsychological processing that underlies learning problems. The courses are taught by Dr. Stixrud and other experienced professionals.

Dr. Stixrud has been in private practice as a neuropsychologist for 25 years, and has offered specialized tutoring services for 20 years. In addition to directing his private practice in Silver Spring, MD, Dr. Stixrud is a member of the clinical faculties at the Children's Medical Center and George Washington University Medical School. He has lectured widely at local private and public schools, as well as to parent and professional groups in metropolitan Washington, D.C. and around the country.

KnowEdge @ McLean School

Those who successfully complete the Core Training Program will not only have the skills to be an excellent tutor, but also the opportunity to work in the McLean School of Maryland's KnowEdge® Program. KnowEdge® is a tutoring collaborative program that allows individuals trained by William R. Stixrud Ph.D. Tutoring Service the opportunity to serve as a tutor in McLean's KnowEdge® program. For more information you can call (240) 395-0690, email knowledge@mcleanschool.org, or click over to www.mcleanschool.org

An ever-increasing number of Washington area students are struggling with the demands of the academic work

required to succeed in school. For students with educational disabilities, traditionally effective teaching and tutoring methods usually are not enough. *Strategies That Work* is a comprehensive tutor training program for those interested in cutting-edge approaches for working with students with educational disabilities.

Core Training Program:

What: The **Core Training Program**

provides, in a classroom and workshop format, an introduction to the neuropsychology of learning and educational disabilities, as well as instruction in the use of strategies for working with students.

When: Class sessions are on 14 consecutive Tuesday evenings, 7:00-9:30 p.m., from September 13 through December 13, 2011.

Cost: Tuition is \$1,200. Participants who complete registration and payment by August 31 will receive an early enrollment discount of \$50.

For more information or a class syllabus call Altah Glasgow at (301) 565-0534, ext. 254 or click on www.stixrud.com/tutor_trainingcourses.asp

Who Should Attend?

- College educated adults who want to train for a new career
- Teachers and paraprofessionals who want to be more effective with students who struggle
- Experienced tutors who seek increased sophistication in their work with students with educational disabilities
- Parents who home school or work with their children

What You'll Gain

Those who complete the training will be prepared to work successfully as professional tutors and/or apply the techniques in a classroom either in small groups or one-on-one. Specifically, participants will:

- Understand the latest neuropsychological models of learning, attention, and executive function disorders
- Have a model for understanding the strengths and weaknesses of their students
- Understand how people acquire the skill of reading and the processes that interfere with its fluent acquisition (dyslexia and other reading difficulties)
- Learn specific approaches for improving reading comprehension of fiction and non-fiction
- Learn to apply a series of step-by-step methodologies for teaching students to organize and produce clear comprehensive written work
- Develop strategies to help students experience more interest in and motivation to do their work
- Develop strategies for building relationships with students who have been frustrated and discouraged about learning
- Learn behavioral techniques for helping students become more efficient in planning and completing their work

Location

All classes will be held at:
McLean School of Maryland
8224 Lochinver Lane
Potomac, MD 20854
