*Elementary and Middle
School Students*

June 22 – August 14

SPECIALIZED FOCUS EXCELLENT RESULTS

Summer tutoring programs provide an important bridge between summer activities and the start of the new school year. Our summer programs, through small groups or one-on-one tutoring, will provide:

1. Intensive instruction in academic subjects, study skills, and organizational strategies.
2. Customized programs focused on the individual needs of each student.
3. A specialized approach to address skills students may have struggled with during the preceding school year.
4. A caring atmosphere with encouragement and support to help students gain confidence for the next academic year.

WHY STIXRUD SUMMER TUTORING PROGRAMS?

Our approach to working with students is based on a neuropsychological model of academic skill development, which our tutors learn from Dr. Stixrud as part of their training. Dr. Stixrud continuously studies new approaches and integrates the most promising techniques into his tutors' toolkits in order to bring the latest strategies to students. Grounded in the scientific study of learning and learning differences, our approach also places enormous emphasis on caring and empathy to support the student.

OVER FIFTEEN YEARS TUTORING STUDENTS WITH LEARNING DIFFICULTIES

Dr. Stixrud began the Tutoring Service over 15 years ago to provide specialized interventions for students with educational challenges. The Tutoring Service provides tutors who are trained in cutting-edge approaches for remediation of academic difficulties. Of equal importance, our tutors focus on students' strengths and work to promote resilience and positive feeling about their ability to learn and succeed.

SUBJECT AREAS

Programs focused on improving skills in reading comprehension and fluency, math, written language, and study skills. However, our programs can be customized to the individual needs of each student.

ELEMENTARY

- Reading Skills
 - Math Skills
 - Written Language Skills
 - Summer Reading and Math Assignments
 - Transition to Middle School
- Development of skills needed for new academic challenges and independent study habits

MIDDLE SCHOOL

- Reading Fluency and Comprehension
- Math Computation and Reasoning
- The Writing Process
- Time Management and Organization Skills
- Traditional Academic Subjects including Social Studies, Science, English, and Literature
